

Getting the Most From Your Shop

A quick-start guide for sellers, in partnership with your Plaza managers

SET UP Your Shop's First Impression

- **Clear photos, accurate prices** — this is what actually turns a browser into a buyer.
- **Get your bank details right** — buyers see this the moment they're ready to pay.
- **Keep your WhatsApp number active** — every sale on the Plaza starts with a message there.

GROW Getting More Business Calls

- **Watch for Boom Days** in your category — a scheduled push of real, concentrated traffic, completely free.
- **Be found on Storefronts and category search** — a fully filled-out shop is far easier for buyers to discover.
- **Reply fast** — a quick response wins more sales than a perfect one that comes too late.

MORE Extra Tools for Your Business

- **Resources button** — free TIN registration and business registration links (CAC / SMEDAN), right on the site.
- **Hiring?** Post it on the Jobs Portal — reach beyond just your own network.
- **Support fellow sellers** — buying from each other keeps the whole Plaza's economy strong.
